

AJAY KUMAR

Full Stack Developer (MERN Stack)

+91-7398420730 ajaykumar895377@gmail.com github.com/ajay7398 linkedin.com/in/ajay-kumar-a64716242

Summary

Entry-level Full Stack Developer specializing in the MERN stack with strong proficiency in Java. Experienced in building secure, scalable, production-ready web applications using JWT-based authentication, RESTful APIs, Redux state management, and role-based access control. Hands-on internship experience in full-stack web development and software engineering simulations. Solid foundation in Data Structures, Algorithms, and OOP. Seeking a software engineering role to contribute clean code and strong problem-solving skills in a fast-paced environment.

Experience

Full Stack Web Development Intern

November 2023 – February 2024

YHills (in partnership with Corevo Pvt. Ltd.)

Remote

- Completed a 4-month structured internship focused on full-stack web development using the MERN stack.
- Built and deployed web application modules with React.js on the frontend and Node.js/Express.js on the backend.
- Implemented RESTful APIs and integrated MongoDB for data persistence across multiple project modules.
- Gained hands-on experience with JWT-based authentication, MVC architecture, and version control using Git.

Software Engineering Job Simulation

January 2025

New York Jobs CEO Council via Forage

Remote

- Completed an industry-grade software engineering simulation issued by the New York Jobs CEO Council via Forage.
- Fixed a critical production bug by identifying root cause, writing a patch, and verifying the fix with test cases.
- Implemented a new feature end-to-end, following professional software engineering workflows and best practices.

Projects

AI-Powered Full Stack Blogging Platform | MERN, JWT, Tailwind CSS, Vercel

Feb 2024 – Mar 2024

- Developed a full-stack blogging platform with AI-assisted content generation and an admin dashboard, reducing manual writing effort for users.
- Implemented JWT-based authentication with role-based access control, securing both admin and user workflows.
- Designed RESTful APIs with MongoDB data modeling supporting dynamic blog creation, editing, and deletion.
- Deployed production-ready app on Vercel with an optimized Vite build pipeline.
- [GitHub](#) | [Live Demo](#)

Personal Portfolio Website | React.js, Vite, Tailwind CSS, EmailJS

Jun 2024 – Jul 2024

- Built a fully responsive portfolio with smooth animations and reusable component architecture, optimized for fast load times via Vite bundling.
- Integrated EmailJS for serverless contact form functionality, eliminating backend dependency.
- Configured React Router for seamless client-side navigation across 5+ sections.
- [GitHub](#) | [Live Demo](#)

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Redux Toolkit, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt.js, Middleware, MVC Architecture

Tools & Technologies: Git, GitHub, Postman, VS Code, Render, Netlify, Vercel, Axios, React Router

Programming & Core: Java, JavaScript (ES6+), SQL, Data Structures, Algorithms, OOP

Education

B.Tech – Computer Science and Engineering

Graduated: 2024

Parul University, Gujarat

CGPA: 7.4 / 10

Certifications & Training

- **Software Engineering Job Simulation** – New York Jobs CEO Council via Forage (January 2025)
- **Full Stack Web Development Internship Certificate** – YHills / Corevo Pvt. Ltd. (March 2024)
- **Zero to Prototype with Node.js** – Parul Institute of Engineering and Technology (2024)
